- Non-specialized wholesale trader
- supply and installations of solar systems
- Protective Clothing (PPE)
- Electronic Components and Supplies
- Cleaning Equipment and Supplies
- Office Equipment and Accessories and Supplies
- Distribution and Conditioning Systems and Equipment and Components
- Fuels and Fuel Additives and Lubricants and Anti corrosive Materials

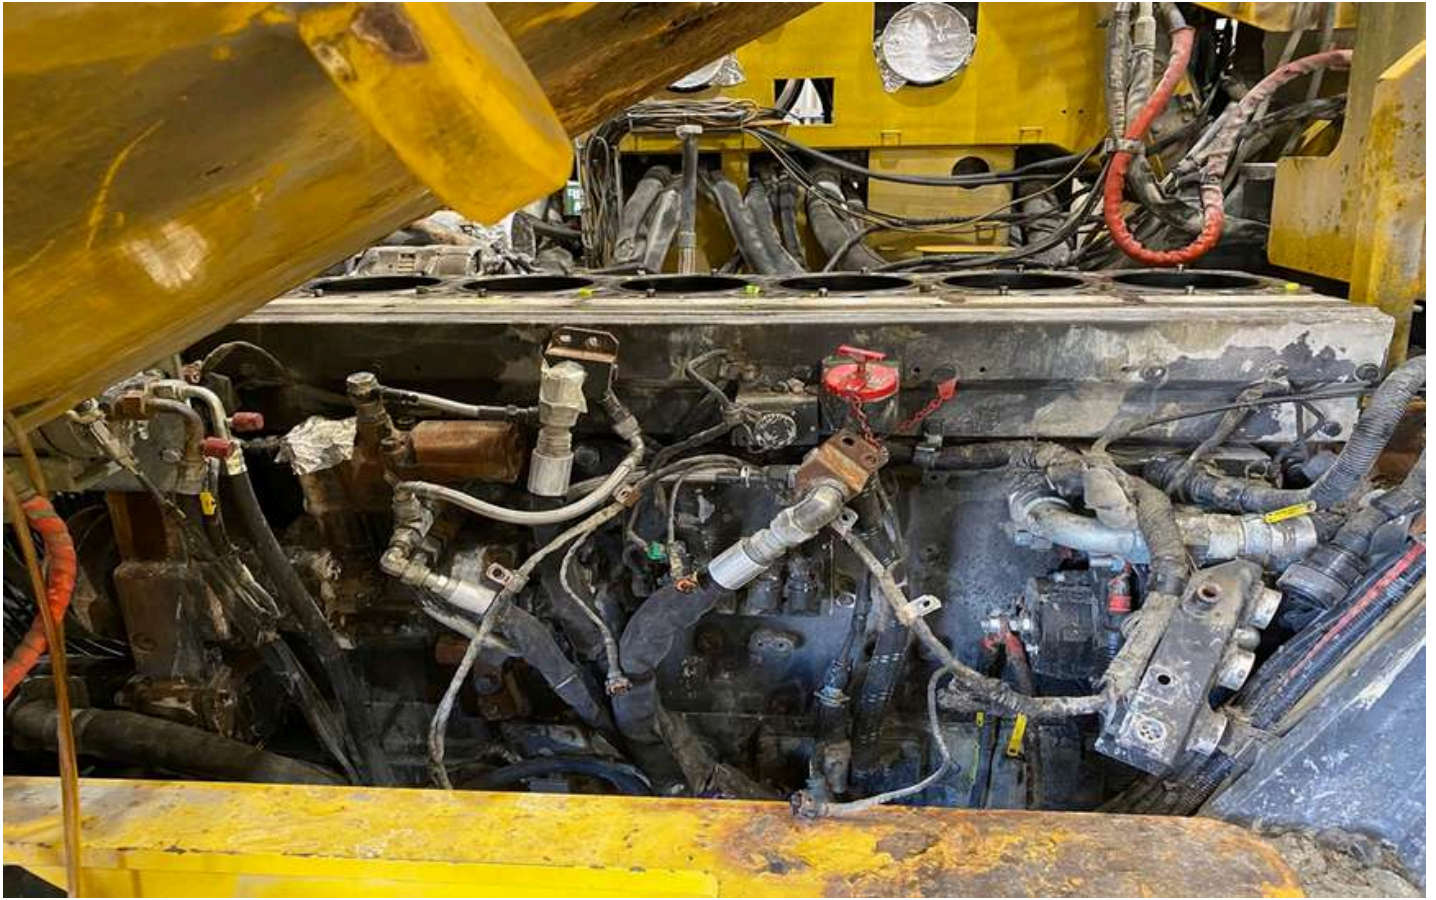

Labour hire

- Equipment Maintenance labour
- Fixed plant maintenance labour
- project Labour hire

Dewatering Services

- Mining Dewatering system Design & installations.
- Pump & Equipment Rentals
- Maintenance & repair Services
- Water treatment Solutions
- Emergency Dewatering services

Engine work

We have so much pride in what we do. This is one of the most recent job we have done, which clearly shows that

We are the people that build and it has been that way the last 5 years. Safer by choice is a philosophy that target genuine attitude change towards Safety. Safety is one of our key values, but it runs deep within Maxim Business, it goes beyond statistic and actively promotes personnel responsibility and careful decision making. Underpinned by three commitment pillars of each action of taking responsibility, supporting each other and focusing on the positives, Safer by choice recognises that everyone involved in the design and delivery of projects is a decision maker, and we all have the ability to improve safety, for ourselves and others, by choice. We aim at becoming the builder and contractor of choice in buildings and road construction. Our works speak for themselves

Reliable and Durable Concrete Culverts for All Infrastructure Needs

high-quality, long-lasting solution for drainage and infrastructure projects. Crafted from the finest materials and engineered for superior performance, our concrete culverts offer unparalleled strength, durability, and reliability. Designed to withstand the toughest conditions, these culverts are the perfect choice for:

- Road and highway construction
- Drainage systems
- Irrigation projects
- Stormwater management
- Agricultural applications
- And much more.

With a wide range of sizes and customizable options available, our concrete culverts can be tailored to fit your specific requirements. Backed by our industry-leading warranty and expert technical support, you can trust that your investment will stand the test of time.

COMPLETE SUPPLY CHAIN MANAGEMENT

To reduce operational hassle and improve the overall efficiency of your mine as sourcing parts and equipment can have an impact on your entire operation. That's where we come in. Our single source mining supply service is tailored to the exact needs of each customer. The approach we take to help you:

Manage the entire mining supply chain

- Negotiate the most competitive rate
- Fill orders 24 hours a day, 7 days a week
- Deliver anywhere in the world

We are devoted to reverse engineering philosophy, which helps you achieve an ultimately lower cost of ownership for the life of the mine. Our expertise in this area allows us to build a trusted partnership with each of our clients to ensure optimal results, so you can focus on your core competencies. We keep your best interests front of mind to ensure you benefit from lower cost of ownership and minimal downtime. We know excellent supply chain management forms the very backbone of general suppliers, mining companies and mining contractors. Our experience gives us the ability to partner with each client and anticipate their long-term needs. We'll challenge your thinking to enable you to remain ahead and achieve a strong competitive advantage.

If you rely on moving equipment and related supplies and consumables, we understand how to ensure your mine or organisation is operating efficiently and productively in urban and remote locations. We have excellent relationships with local and international suppliers and focus on zero downtime as well as the safety of our people and everyone we work with.

Health and Safety Management System

- Conduct audits of key processes within the business as part of our Continual Improvement Process
- Ensure our Occupational Health and Safety Management System is conformant to OSHAS
- Review this policy annually

Occupational Health & Safety Policy

In all aspects of activities Maxim Maintenance Solutions is committed to providing and Maintaining a safe working environment including safe systems of work for all employees, Visitors And contractors.

All employees have a responsibility to work safely, to take all reasonable care for their own Health and safety and to consider the health and safety of other people who may be affected by their actions. All Managers and Supervisors are responsible to ensure, within their respective level of control, the safety and health of employees, contractors and visitors to the workplace.

Maxim Maintenance Solutions adopts the preventive principle that a zero-injury frequency rate is achievable and therefore it is a key management objective. The benefit to be gained from a successful safety and health program are significant in both human and monetary terms and justifies the pursuit of the highest standards of occupational health and safety

Occupational Health & Safety Objectives

The Management and Staff at Maxim Maintenance Solutions are committed and will strive to:

- Prevent and eliminate work related injuries and illnesses, and achieve a zero-injury frequency rate.
- Identify, assess and control work place hazards and risks to provide a healthy and safe workplace.
- Develop procedures, processes and instructions to ensure safe systems of work are implemented and maintained.

As part of our systems and processes we will:

- Train, educate and communicate with employee's, contractors and other relevant interested parties in regard to this policy and occupational health and safety expectations where necessary.
- Ensure that this policy is available to interested parties.
- Define and meet objectives, by documenting and monitoring measurable occupational health and safety targets to ensure continued improvement aimed at the elimination of work-related injury and illness.
- Conduct regular management review meetings to ensure our Occupational Health and Safety management system is reviewed and controlled appropriately.
- Report, investigate and apply corrective actions to all work place incidents.
- Comply to OH&S statutory, regulatory and other requirements.
- Continually monitor and improve our health and safety performance and the effectiveness of our Occupational.

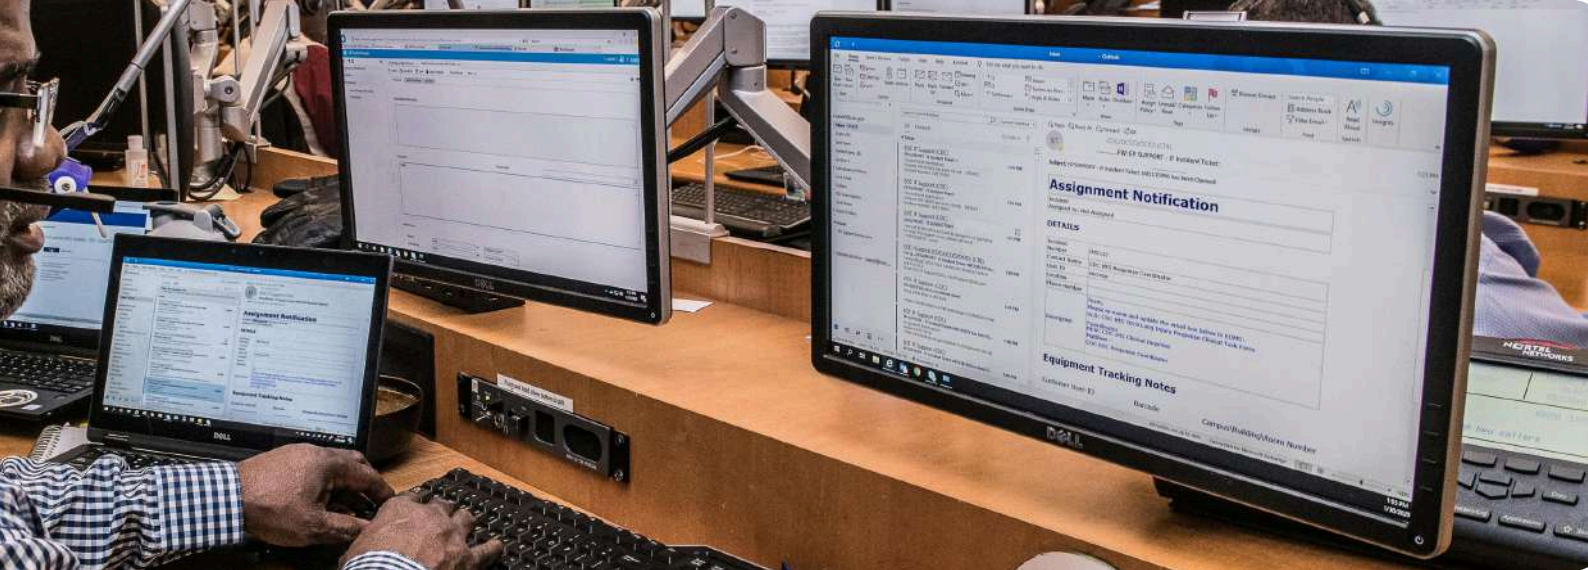

Management Responsibilities

- Provide information, supervision and training when required
- Provide continuous improvement in health and safety standards
- Ensure all managers have their exquisite knowledge and skills to perform their responsibilities

Employee Responsibilities

- Report any unsafe conditions and equipment
- Report all accidents and near miss incidents
- Wear all protective clothing relevant to the work the employee is performing
- Ensure that no action will cause harm to any other person
- Ensure that all safe work methods, instructions and rules are always followed

Quality Management System

- Apply Risk Based Thinking within our systems, operations and processes
- Conduct audits of key processes within the business as part of our Continual Improvement Process
- Ensure our Quality Management System is conformant to ISO
- Review this policy annually

Management Responsibilities

- Defining and documenting Quality Policy and objectives
- Ensuring both quality management and quality policy are regularly reviewed for continuing suitability

Employee Responsibilities

- Ensure that they understand and carry out the management and procedures that are applicable to their work areas.

Environmental Policy Statement.

Maxim Maintenance Solutions respects the need to protect the environment in which we operate. We demonstrate a proud history of environmental engagement to minimise, mitigate and remediate the impacts of our operations. As we continue to mature and grow our business, we strive to achieve effective and sustainable environmental outcomes through disciplined environmental management. As responsible corporate citizens, compliance with all relevant environmental laws and obligations is the minimum standard to which we operate, and, the minimum requirement against which we measure our environmental performance. Protecting the environment now and into the future is a cornerstone of Maxim Maintenance solutions's success and sustainability. This success benefits not only our company, but also our families, our communities and our future generations.

Environmental Objectives

The Management and Staff at Maxim Maintenance Solutions are committed and will strive to:

- Implement processes to minimise waste and protect the environment
- Actively promote recycling both on our work sites and within our administrative processes
- Purchase environmentally friendly products wherever possible as part of our systems and processes we will:
- Train, educate and communicate with employee's, contractors and other relevant interested parties in regard to this policy and expectations towards protecting the environment where necessary
- Ensure that this policy is available to interested parties
- Define and meet objectives, by documenting and monitoring measurable environmental targets consistent with this policy
- Conduct regular management review meetings to ensure our Environmental Management System is reviewed and controlled appropriately
- Report, investigate and apply corrective actions to all environmental incidents and non-compliances
- Comply to environmental statutory, regulatory and other requirements
- Document and mitigate all company environmental aspects and impacts where reasonably practicable
- Conduct audits of key processes within the business as part of our Continual Improvement Process.
